SBW white board

AF drain tile

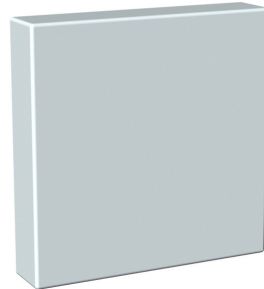

VT recessed tile

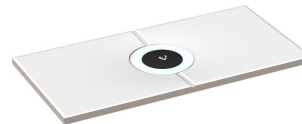

TR toilet roll holder

VR vent grid

MT knife magnet

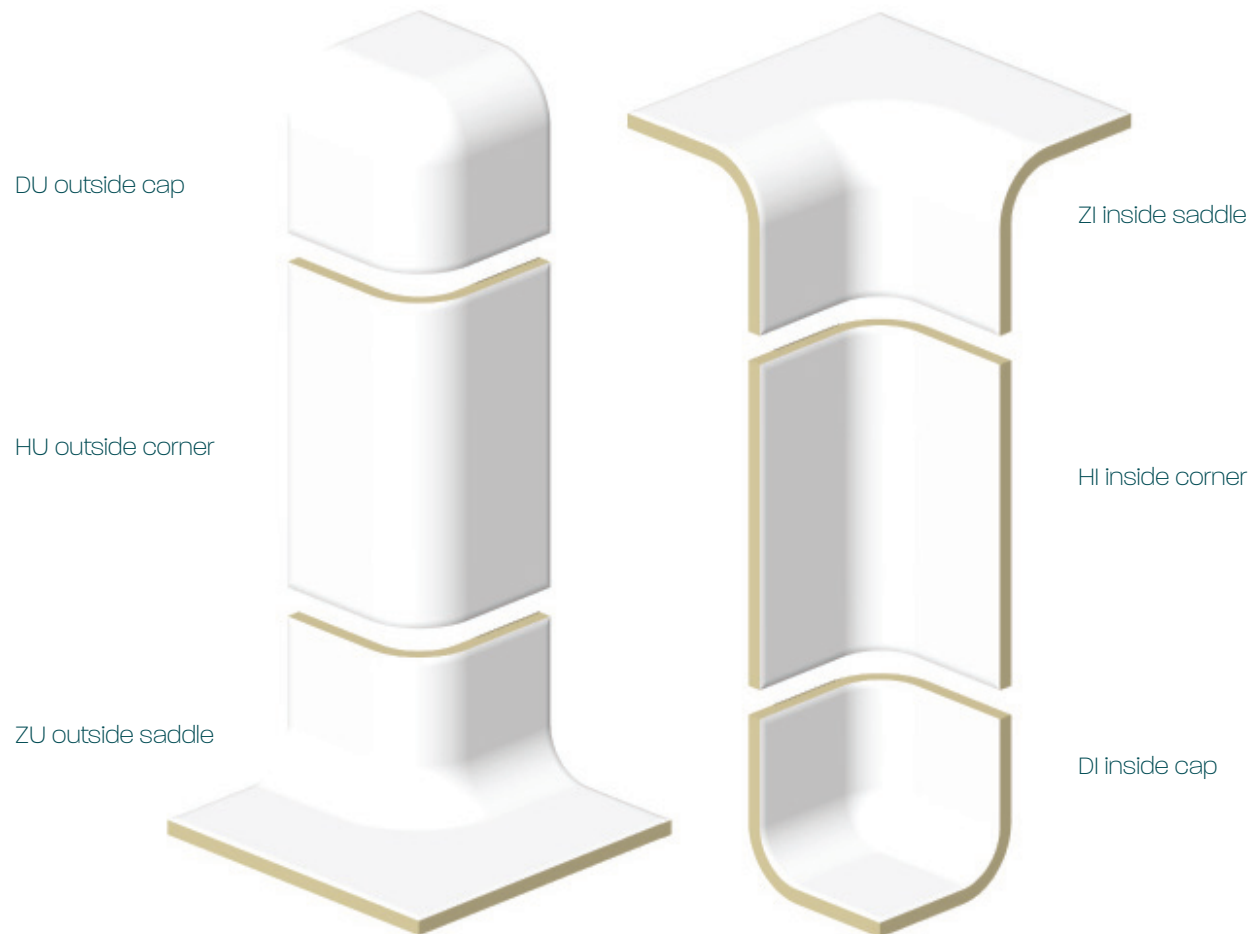

AF30 30cm drain tile

The DTILE construction tiles and function tiles are so unique that there are no industry norms or standards which comply.

The collection consists of 6 construction tiles and 16 function tiles in twenty colors.

To avoid confusion, we gave every tile and color a name.

When ordering make sure to use the proper names and names of colors (see illustration beneath and illustrations on the following pages).

Shown colours are indicative. Samples of flat tiles are available. * = temporarily unavailable, ask for the possibilities.

* Except for FIRE FIGHTER all flat tiles are on stock. Construction- and function tiles have a leadtime.

Matching our walltiles in colours SNOW and PIGEON we have anti-slip floortiles available (R10 / R12).
